Provider training

Provider Representatives are available in your area to provide one-on-one assistance when you have questions or concerns. Your Provider Representative will be your first point of contact when you have special needs or concerns.

The content for provider training sessions will be announced through web announcements and the calendars in this catalog will be updated monthly. The content will be changing based on provider feedback and DHCFP program changes. This approach will keep the training material relevant throughout the year. This format will also allow HP Enterprise Services to train on the subjects that may be a focus area based on provider needs.

Virtual training will also continue and will be available throughout the year. Again, the content will be changing based on provider feedback and DHCFP program changes. These sessions will be announced through web announcements.
